# **Anser Charter School Strategic Plan**

## History

When Anser Charter School was granted a charter by the Boise School District in September 1998, the school's founders set their sights on the future. The focus of the school was to open and operate an exemplary school based on Expeditionary Learning-Outward Bound design principles. In its first decade, Anser staff, parents, and Board built a school with a unique curriculum and a reputation for academic success, service to

the community, and strong character. With the educational infrastructure firmly in place, the Anser community moved to strengthen the school's financial underpinnings and organizational infrastructure. Anser begins its second decade in a new facility, bringing new opportunities and challenges which are reflected in the strategic direction for years 15-20.

#### **Vision Statement**

Anser's vision is to educate the whole child in a collaborative learning community where individuals are inspired to achieve their academic potential, be self-motivated and feel a sense of connection and responsibility to the world.

#### **Mission Statement**

Anser's mission is to foster learning that imagines a better world and works toward realizing it; set high academic standards; promote creativity, discovery, reflection and balance; embrace diversity; and use developmentally appropriate practices and real-world experiences to educate within a climate of collaboration, community, character, and compassion.

### **Strategic Plan Implementation and Review**

Anser's Strategic Plan will be updated and approved annually. The Board will annually review presentations from the Education Director and Organization Director which will include analyses of student growth and achievement, student demographics, financial performance, and annual goal attainment, using the data provided to inform the adoption of goals for the following school year.

## **Anser Strategic Direction**

(Operational Years 15 - 20)

### The Anser Board, staff, and parents will position the school for long term sustainability.

Five major initiatives support this overall objective. The Anser Board is responsible for establishing strategic direction and monitoring progress. Family Council represents the voice of the parent community, communicating needs and suggestions to the Board. The Anser staff provides professional support for the initiatives. This document assists the staff in clarifying organizational priorities.
