

# Anser "Drive Through" Chromebook & Supply Pickup

**Wed Aug. 19 & Thurs Aug. 20**  
**4:00 - 7:00 p.m.**

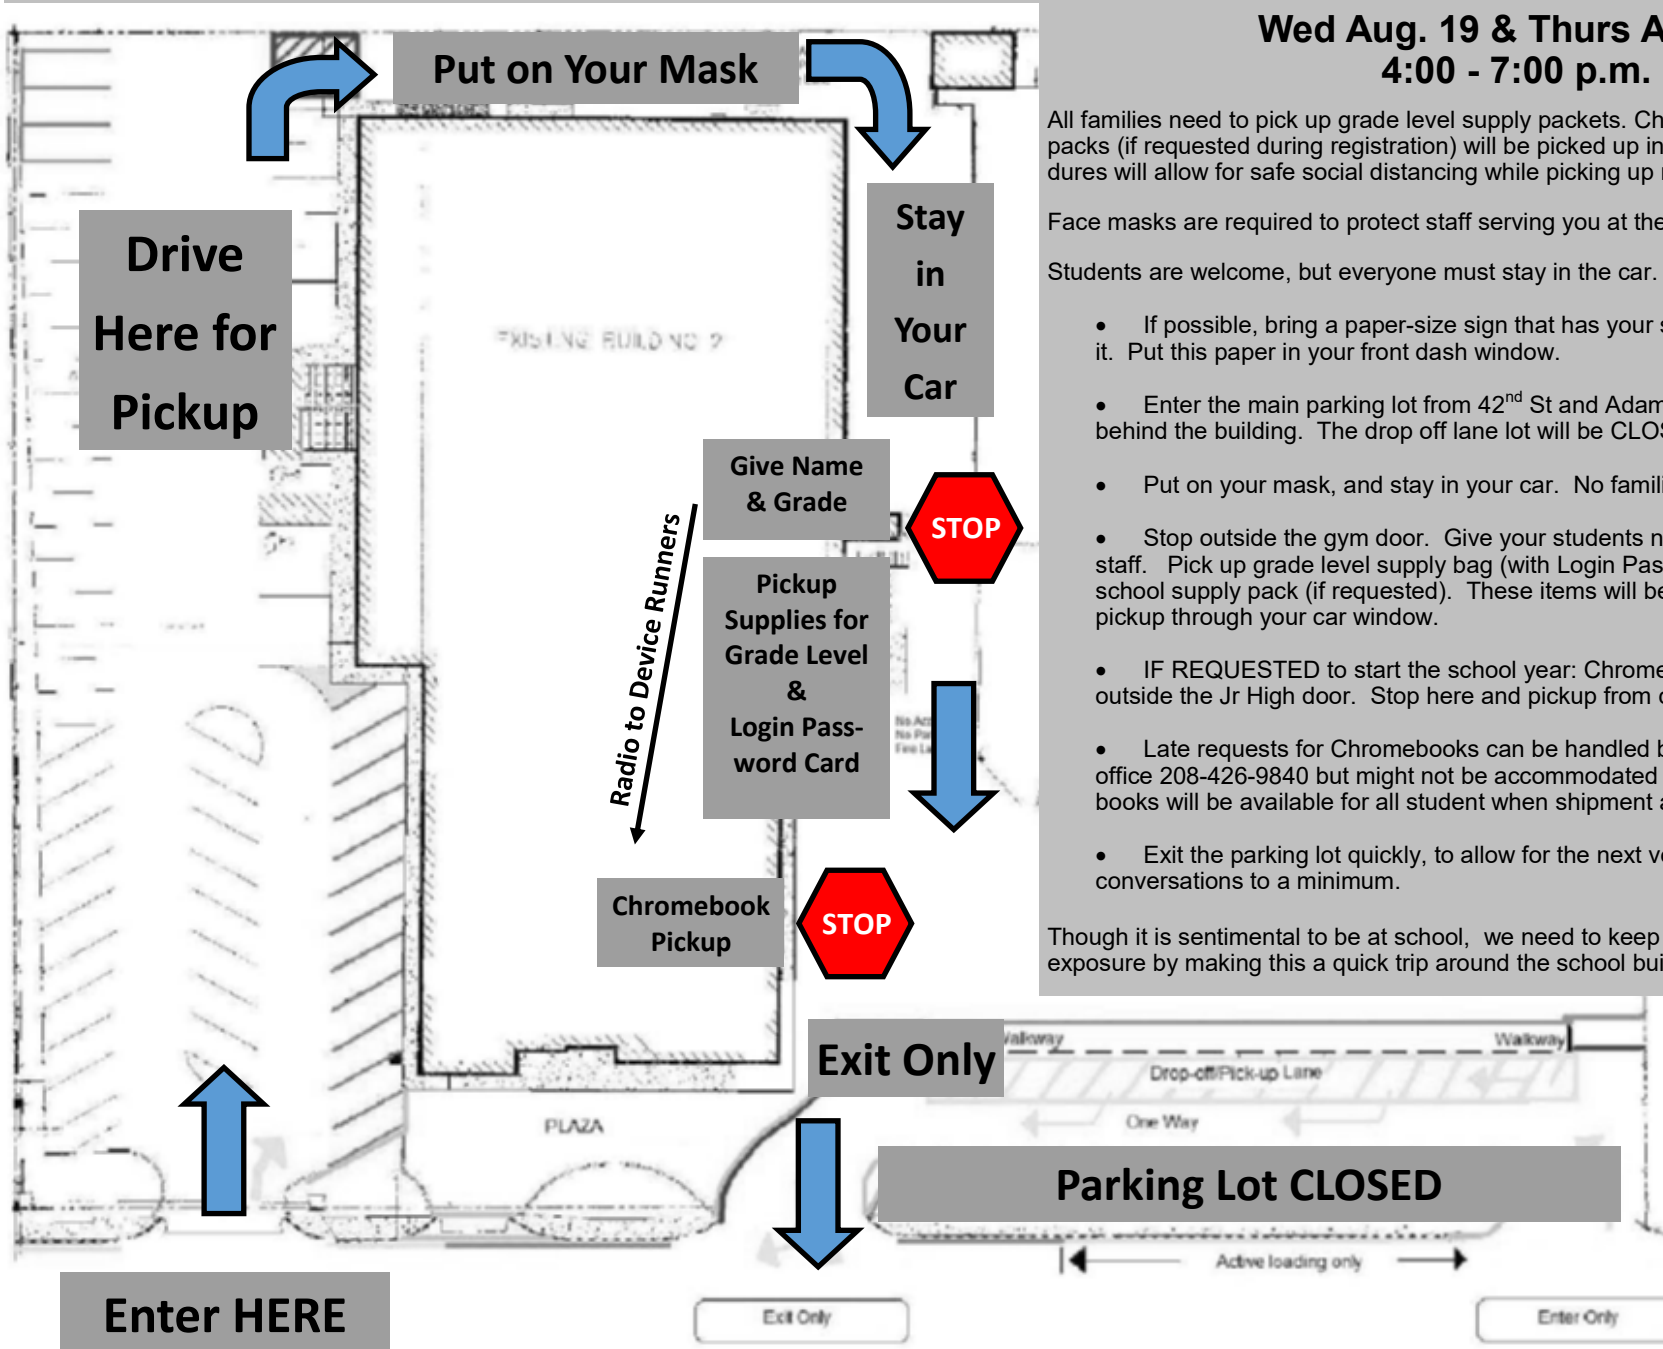

All families need to pick up grade level supply packets. Chromebooks and school supply packs (if requested during registration) will be picked up in this line also. These procedures will allow for safe social distancing while picking up necessary items from school.

Face masks are required to protect staff serving you at the drive through stations.

Students are welcome, but everyone must stay in the car.

- If possible, bring a paper-size sign that has your students' names and grades on it. Put this paper in your front dash window.
- Enter the main parking lot from 42<sup>nd</sup> St and Adams, and line up through the alley behind the building. The drop off lane lot will be CLOSED.
- Put on your mask, and stay in your car. No families will enter the building.
- Stop outside the gym door. Give your students names and grades to staff. Pick up grade level supply bag (with Login Password Card) including general school supply pack (if requested). These items will be placed on a cart for you to pickup through your car window.
- IF REQUESTED to start the school year: Chromebook and charger pickup is outside the Jr High door. Stop here and pickup from cart through your car window.
- Late requests for Chromebooks can be handled by emailing/calling the school office 208-426-9840 but might not be accommodated on the spot. More chromebooks will be available for all student when shipment arrives (Sept/Oct).
- Exit the parking lot quickly, to allow for the next vehicles to pickup. Please keep conversations to a minimum.

Though it is sentimental to be at school, we need to keep everyone safe and minimize exposure by making this a quick trip around the school building.
